- BSPM4275TNSR
- BSPH_TT
- BSPH_TTR

Description:

Eaton's Bussmann™ series four-pole IEC Class II modular surge arresters feature local, *easyID™* visual status indication and optional remote contact signaling. The unique module locking system fixes the protection module to the base. Modules can be easily replaced without tools by simply depressing the release buttons. Integrated mechanical coding between the base and protection module ensures against installing an incorrect replacement module.

These 230 volt models are offered with MCOV ratings of 275, 320 or 385V.

TN-S system arrester

The features of these four-pole devices are for use in TN-S 230/400 volt systems ("4-0" circuit) against surges.

TT system arrester

The features of these four-pole devices are for use in TT and TN-S 230/400 volt systems ("3+1" circuit) against surges.

Optional remote contact signaling

The three-pole terminal remote contact signaling option has a floating changeover contact for use as a break or make contact, according to circuit concept.

Specifications:

System volts

- 230

System types

- TN-S
- TT

Agency information

- CE
- KEMA
- RoHS compliant

Mounting

- 35mm DIN-Rail

Warranty

- Five years

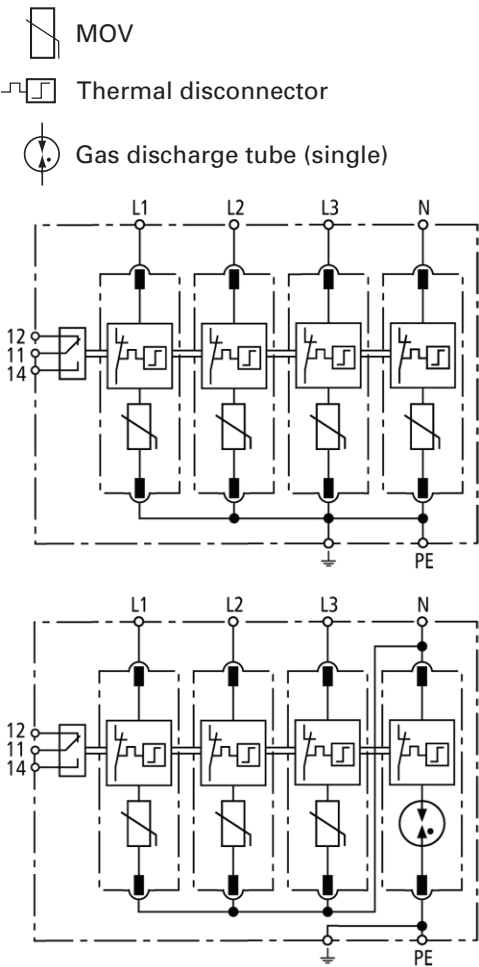

Powering Business Worldwide

Dimensions - mm:
