Product introduction

Tactile switch (JF series), PC terminal type (silver-plated contact): single pole single throw, housing / operation unit shape: square, operation unit color: gray, clear operation feeling: short stroke, light operation force, light Touch / Space saving possible / Floating prevention structure during installation / Washing / washing possible / Abundant color variations / Operating temperature range: -25 to 85 ° C / EU-RoHS compliant Model name: JF-15SKSGNP2

Product Summary

Model name	JF-15SKSGNP2
category	Tactile
series	JF
Subcategory	Non-illuminated switch
Contact specifications	Silver plating
Current capacity for detailed display 1	50mA 24V DC
Operating temperature range (°C)	-25 / + 85
Number of poles	Single pole
Function 1	OFF- (ON)
Operation section shape	Angle: 14
Terminal shape	Printed circuit board straight
Dimensions guide 1 (unit: mm length * width * back)	5.08 × 17.7 × 17.7
External dimensions 2 (conditions)	Excluding terminal
Approximate operating unit size 1 (unit: mm)	14 × 14
Operation unit size guide 2 (condition)	No protrusion
Environmental	RoHS

performance

Specification change

No.	category	Overview	date of issue	PDF
352	Specification change	Compliant with the banned substance standards of 10 substances regulated by EU-RoHS Directive Compliant by July 22, 2019	April 26, 2019	
307	Specification change	Production transfer from domestic factory to Philippine factory	April 27, 2017
