Product introduction

Tactile switch (JF series) · PC terminal type (silver-plated contact): single pole single throw · housing / control part shape: square · color of operation part: green · clear operation feeling: short stroke, light operation force, light Touch · Space saving possible · Uplift preventing structure at the time of installation · Round washing possible · Rich color variation · Operating temperature range: -25 to 85 ° C · ROHS directive compliant (From the shipment on July 1, 2006) : JF-15SKSMNP2

Product Summary

Model name	JF-15SKSMNP2
category	Tactil
series	JF
Sub category	Non-illuminated
Contact specification	Silver plated
Current capacity for detail display 1	50mA 24V DC
Operating temperature range (° C)	-25 / + 85
Number of poles	Single pole
Function 1	OFF-(ON)
Operation unit shape	Corner: 14
Terminal shape	Printed circuit board straight
External dimension standard 1 (unit: mm vertical * horizontal * back)	5.08 × 17.7 × 17.7
Outline dimension 2 (conditions)	Terminals excluded
Operation part size standard 1 (unit: mm)	14 × 14
Operation part	No protrusion

size standard 2 (conditions)	
Environmental performance	RoHS
