

Prism - Quarton Beam Splitter Penta prism (1')

- Beam Splitter Penta prism is a five-sided prism can be used as Beam-splitter that splits one laser beam to two beams.
- The splitted beam angle : $90^\circ \pm 1'$

Parameters

Material : K9
 Dimension : 14.25x14.24x10 mm
 Design Wavelength : 635 nm
 Surface Flatness : $\lambda/2$
 Surface Quality : 40-20
 Splitted beam angle : 90°
 Beam Angular Deviation : $1'$
 Beamsplitter Ratio : 50% / 50%

Item Model Number	Part Name	Quantity	Description
191-66012G	Prism-Quarton Beam Splitter Penta prism (1'),1PCS	1	14.25x14.24x10 mm, Splitted angle 90° , Angular Deviation $1'$, splitter Ratio 50% / 50%
