3M™ Puncture Resistant Metal-Out Static Shielding Bag with Zipper Closure, 2110R 4X6

Puncture resistant shielding bags offer more strength for packaging items with sharp edges, like PCBs and shipping tubes. These puncture resistant bags use double the amount of polyester plastic as compared to standard shielding bags.

Features applicable to all Puncture Resistant Bags

- Extra thick polyester plastic to resist punctures and tears.
- Bags are printed with ESD Warning symbol and lot coded for QC traceability.
- Meets or exceeds certain electrical and physical requirements of ANSI/ESD S541, EIA 625, and to be ANSI/ESD S20.20 program compliant as shown on product data sheets.
- Bags are RoHS Compliant* and lead-free**.

3M™ Puncture Resistant Metal-Out Static Shielding Bags 2100R/2110R

- Metal layer is positioned near the outer surface for fast charge decay and low charge retention.
