

## Shaft - D-Shaft (Stainless; 1/4"D x 1.50"L)

ROB-12296

© images are CC BY-NC-SA 3.0

**Description:** These 1.50" long stainless steel D-Shafts have a diameter of  $\frac{1}{4}$ ". The flat edge that runs the length of the shaft makes it an ideal drive shaft, when used with a gear, pulley, or even a shaft coupler.

## Dimensions:

- Length 1.50"
- Diameter 1/4"
- Flat Edge Width 0.16"
