

## Switchctaft<sup>®</sup> I/4" Longframe & TT/Bantam Patchcords

Switchcraft's 1/4" Longframe and TT/Bantam audio patchcords are built using low capacitance 110 Ohm cable ideal for analog, AES/EBU digital, or SMPTE time code. Dual TT/Bantam versions offer the same low capacitance 110 Ohm cabling and are perfect for RS422 patching, as well as stereo audio patching when used in conjunction with Switchcraft® TT stereo spaced patchbays.

Switchcraft® 1/4" Longframe and TT/Bantam patchcords are currently available in seven colors and feature a highly durable, molded thermoplastic strain relief. The plugs are made of nickel plated copper alloy, which means they won't tarnish and do not need polishing.

For more information on 1/4" Longframe patchcords, visit: http://www.switchcraft.com/products/559.html

For more information on TT/Bantam and Dual TT/bantam patchcords, visit: http://www.switchcraft.com/products/557.html
