

- High Efficiency > 85%
- Self-Contained Inductor
- Short Circuit Protection
- Over-Temperature Protection

The PT79SR100 is a line of Negative Input/Negative Output 3-terminal Integrated Switching

Regulators (ISRs). These ISRs have a maximum output current of -1.5 Amps and an output voltage that is laser trimmed to most industry standard voltages. They have excellent line and load regulation, and are ideal for applications, such as RS232 and Ethernet communications, ECL logic, and op-amp circuitry.

Standard Application

Pin-Out Information

| Pin | Function |
|-----|-------------------|
| 1 | GND |
| 2 | -V _{in} |
| 3 | -V _{out} |

Ordering Information

| PT79SR1 | XX | Y |
|------------------|----|----------------------|
| Output Voltage | | Package Suffix |
| 05 = -5.0 Volts | | V = Vertical Mount |
| 52 = -5.2 Volts | | S = Surface Mount |
| 06 = -6.0 Volts | | H = Horizontal Mount |
| 08 = -8.0 Volts | | |
| 09 = -9.0 Volts | | |
| 12 = -12.0 Volts | | |
| 15 = -15.0 Volts | | |

Specifications

| Characteristics (T _a = 25°C unless noted) | Symbols | Conditions | PT79SR100 SERIES | | | |
|---|-------------------------|--|------------------|-----------|------------|------------------------------|
| | | | Min | Typ | Max | Units |
| Output Current | I _o | Over V _{in} range | -0.1* | — | -1.5 | A |
| Short Circuit Current | I _{sc} | V _{in} =V _o -4V | — | -3.5 | — | A _{pk} |
| Input Voltage Range | V _{in} | I _o =-0.1 to -1.5 A -0.1 \geq I _o \geq -1.5 A | -9 -19 | — | -30 -30 | V |
| Output Voltage Tolerance | Δ V _o | Over V _{in} range, I _o =-1.5 A T _a =20°C to shutdown | — | \pm 1.0 | \pm 3.0 | %V _o |
| Line Regulation | Reg _{line} | Over V _{in} range | — | \pm 1.0 | \pm 2.0 | %V _o |
| Load Regulation | Reg _{load} | -0.1 \leq I _o \leq -1.5 A | — | \pm 0.5 | \pm 1.0 | %V _o |
| V _o Ripple/Noise | V _n | V _{in} =-15V, I _o =-1.0 A, V _o =-5V | — | 35 | — | mV _{pp} |
| Transient Response | t _{tr} | 50% load change V _o =overshoot/undershoot | — — | 100 30 | — | μ Sec %V _o |
| Efficiency | η | V _{in} =-10V, I _o =-1.0A, V _o =-5V | — | 85 | — | % |
| Switching Frequency | f _o | Over V _{in} and I _o ranges | 0.95 | 1.0 | 1.05 | MHz |
| Absolute Maximum Operating Temperature Range | T _a | | -40 | — | +85 | °C |
| Recommended Operating Temperature Range | T _a | Free Air Convection, (40-60LFM) Over V _{in} and I _o ranges | -40 | — | +60** | °C |
| Thermal Resistance | θ_{ja} | Free Air Convection, (40-60LFM) | — | 45 | — | °C/W |
| Temperature Coefficient | T _c | Over V _{in} and I _o ranges | — | \pm 0.5 | \pm 1.5 | mV/°C |
| Storage Temperature | T _s | — | -40 | — | +125 | °C |
| Mechanical Shock | — | Per Mil-STD-883D, Method 2002.3 | — | 500 | — | G's |
| Mechanical Vibration | — | Per Mil-STD-883D, Method 2007.2, 20-2000 Hz, soldered in a PC board | — | 5 | — | G's |
| Weight | — | — | — | 7.0 | — | Grams |

* ISR will operate down to no load with reduced specifications.

Ripple vs Output Current

Thermal Derating (T_a) (See Note 2)

Power Dissipation vs Output Current

Note 1: All data listed in the above graphs, except for derating data, has been developed from actual products tested at 25°C. This data is considered typical data for the ISR.

Note 2: Thermal derating graphs are developed in free air convection cooling of 40-60 LFM soldered in a printed circuit board. (See Thermal Application Notes.)

PACKAGING INFORMATION

| Orderable Device | Status ⁽¹⁾ | Package Type | Package Drawing | Pins | Package Qty | Eco Plan ⁽²⁾ | Lead/Ball Finish | MSL Peak Temp ⁽³⁾ |

⁽¹⁾ The marketing status values are defined as follows:

ACTIVE: Product device recommended for new designs.

LIFEBUY: TI has announced that the device will be discontinued, and a lifetime-buy period is in effect.

NRND: Not recommended for new designs. Device is in production to support existing customers, but TI does not recommend using this part in a new design.

PREVIEW: Device has been announced but is not in production. Samples may or may not be available.

OBSOLETE: TI has discontinued the production of the device.

(2) Eco Plan - The planned eco-friendly classification: Pb-Free (RoHS), Pb-Free (RoHS Exempt), or Green (RoHS & no Sb/Br) - please check <http://www.ti.com/productcontent> for the latest availability information and additional product content details.

TBD: The Pb-Free/Green conversion plan has not been defined.

Pb-Free (RoHS): TI's terms "Lead-Free" or "Pb-Free" mean semiconductor products that are compatible with the current RoHS requirements for all 6 substances, including the requirement that lead not exceed 0.1% by weight in homogeneous materials. Where designed to be soldered at high temperatures, TI Pb-Free products are suitable for use in specified lead-free processes.

Pb-Free (RoHS Exempt): This component has a RoHS exemption for either 1) lead-based flip-chip solder bumps used between the die and package, or 2) lead-based die adhesive used between the die and leadframe. The component is otherwise considered Pb-Free (RoHS compatible) as defined above.

Green (RoHS & no Sb/Br): TI defines "Green" to mean Pb-Free (RoHS compatible), and free of Bromine (Br) and Antimony (Sb) based flame retardants (Br or Sb do not exceed 0.1% by weight in homogeneous material)

(3) MSL, Peak Temp. -- The Moisture Sensitivity Level rating according to the JEDEC industry standard classifications, and peak solder temperature.

Important Information and Disclaimer: The information provided on this page represents TI's knowledge and belief as of the date that it is provided. TI bases its knowledge and belief on information provided by third parties, and makes no representation or warranty as to the accuracy of such information. Efforts are underway to better integrate information from third parties. TI has taken and continues to take reasonable steps to provide representative and accurate information but may not have conducted destructive testing or chemical analysis on incoming materials and chemicals. TI and TI suppliers consider certain information to be proprietary, and thus CAS numbers and other limited information may not be available for release.

In no event shall TI's liability arising out of such information exceed the total purchase price of the TI part(s) at issue in this document sold by TI to Customer on an annual basis.

IMPORTANT NOTICE

Texas Instruments Incorporated and its subsidiaries (TI) reserve the right to make corrections, modifications, enhancements, improvements, and other changes to its products and services at any time and to discontinue any product or service without notice. Customers should obtain the latest relevant information before placing orders and should verify that such information is current and complete. All products are sold subject to TI's terms and conditions of sale supplied at the time of order acknowledgment.

TI warrants performance of its hardware products to the specifications applicable at the time of sale in accordance with TI's standard warranty. Testing and other quality control techniques are used to the extent TI deems necessary to support this warranty. Except where mandated by government requirements, testing of all parameters of each product is not necessarily performed.

TI assumes no liability for applications assistance or customer product design. Customers are responsible for their products and applications using TI components. To minimize the risks associated with customer products and applications, customers should provide adequate design and operating safeguards.

TI does not warrant or represent that any license, either express or implied, is granted under any TI patent right, copyright, mask work right, or other TI intellectual property right relating to any combination, machine, or process in which TI products or services are used. Information published by TI regarding third-party products or services does not constitute a license from TI to use such products or services or a warranty or endorsement thereof. Use of such information may require a license from a third party under the patents or other intellectual property of the third party, or a license from TI under the patents or other intellectual property of TI.

Reproduction of information in TI data books or data sheets is permissible only if reproduction is without alteration and is accompanied by all associated warranties, conditions, limitations, and notices. Reproduction of this information with alteration is an unfair and deceptive business practice. TI is not responsible or liable for such altered documentation.

Resale of TI products or services with statements different from or beyond the parameters stated by TI for that product or service voids all express and any implied warranties for the associated TI product or service and is an unfair and deceptive business practice. TI is not responsible or liable for any such statements.
