

Right-Angle Cat6 Gigabit Snagless Molded Slim UTP Ethernet Cable (RJ45 M/M), Blue, 1 ft.

MODEL NUMBER: **N201-SR1-BL**

Connects network components like printers, computers, copiers, routers, servers, modems and switches. Ideal for high-density data centers. Slim design increases airflow in tight spaces.

Description

The N201-SR1-BL Cat6 Gigabit Molded Slim UTP Patch Cable is perfect for connecting network components like printers, computers, copiers, routers, servers, modems and switches in high-density data centers. Designed for fast transmission and excellent signal quality, this one-foot blue cable ensures peak performance throughout your local area network (LAN).

Manufactured from 28 AWG copper wire, the four-pair stranded UTP N201-SR1-BL delivers speeds up to Cat6 Gigabit/1 Gbps. Protected by a PVC jacket, this cable is more than 35% smaller in diameter than standard Cat6 cable, which increases airflow in tight spaces and makes it easier to install around corners and through cable management panels.

Space-saving right-angle RJ45 male connectors are easy to plug into patch panels and switches located in adjoining spaces inside a rack. Integral strain relief ensures the cable and connectors last a long time.

Features

Perfect Solution for Your Networking Needs

- Ideal for connecting components like printers, computers, copiers, routers, servers, modems and switches in high-density data centers
- Designed for fast transmission and excellent signal quality
- Ensures peak performance throughout your LAN
- Delivers speeds up to Cat6 Gigabit/1 Gbps

No-Snag Right-Angle RJ45 Connectors

- Male connectors plug easily into patch panels and switches in adjoining rack spaces
- Molded boots protect locking tabs from damage during installation

Special Slim Design

Highlights

- Over 35% slimmer than standard Cat6 cables
- Rated for Cat6 Gigabit/1 Gbps communications
- Right-angle RJ45 male connectors
- Easy to route through cable management panels
- High-quality 28 AWG stranded copper wire

Package Includes

- N201-SR1-BL Cat6 Gigabit Molded Slim UTP Patch Cable (M/M), 1 ft.

- More than 35% smaller in diameter than standard Cat6 cable
- Increases airflow in tight spaces
- Increased flexibility for installing around corners and through cable management panels

Premium Construction for Superior Performance

- Made from 28 AWG copper wire
- PVC 4-pair stranded UTP
- Integral strain relief for long life
