

4-Outlet Power Strip, 10 ft. Cord, NEMA 5-15P Plug, 12 in.

MODEL NUMBER: **PS120410**

Metal 12 in. power strip distributes power to multiple devices in an industrial, office, retail, rackmount, raceway, workbench or point-of-sale setting.

Description

The 12-inch PS120410 4-Outlet Power Strip is an appropriate power distribution solution for powering multiple devices in a home, office, warehouse, workbench, rackmount, raceway, retail display or point-of-sale setting. The long 10-foot power cord with NEMA 5-15P plug lets you mount the power strip away from the power source for maximum convenience and flexibility. Place it on the floor, or use the included hardware to install it vertically or horizontally on a wall, workbench or under a counter.

Four NEMA 5-15R outlets are arranged in standard 1.77-inch center-to-center spacing for easy connection to equipment. A built-in 15A circuit breaker detects dangerous overloads that could damage valuable equipment and immediately shuts down the PS120410. A transparent switch cover protects against accidental shutdowns. A lighted on/off switch confirms at a glance that the power strip is operating.
