

## SmartPro 230V 3kVA 2.25kW Line-Interactive UPS, Tower, Extended Run, Network Card Options, USB, DB9 Serial

MODEL NUMBER: **SMARTINT3000VS**

### Description

Tripp Lite's SMARTINT3000VS intelligent, line-interactive tower uninterruptible power supply (UPS) prevents data loss, downtime and equipment damage due to power outages, voltage fluctuations and transient surges. Large internal batteries offer 14 minutes half load runtime and 4 minutes at full load. Runtime is expandable with optional external battery packs. Maintains regulated 230V nominal output without using battery power during brownouts and overvoltages from 151 to 282V. 3000VA power handling capability offers compatibility with a variety of networking, telecom and other sensitive electronic applications. Includes a total of 9 outlets with 3 load banks that are individually switchable via software interface to reboot select equipment on demand or shed less significant loads to extend battery runtime for more critical equipment. Supports simultaneous remote monitoring of UPS and site power conditions via built-in USB and DB9 monitoring ports. PowerAlert UPS monitoring software is available via free download. Built-in accessory slot supports Network Management Card option. Emergency Power Off (EPO) interface offers option for instantaneous power-off of UPS and connected equipment in the case of fire or emergency. Multi-function audible alarms and set of 5 front panel LEDs offer at-a-glance notification of UPS and line power status. Network-grade AC surge suppression protects equipment from damage and performance problems resulting from transient surges and line noise. Attractive gray color scheme.
