

# **Military COTS 28 Vin Filter**

**M-FIAM9** 

Model Number M-FIAM9M21\*

# CE

# Input Attenuator Module

# Features

- EMI filtering-MIL-STD-461E<sup>(1)</sup>
- Transient protection-MIL-STD-704A/E/F, MIL-STD-1275A/B/D
- Environments-MIL-STD-810, MIL-STD-202
- · Environmental stress screening
- Low profile mounting options
- Output power up to 500 W
- Output current up to 18 A
- Mini sized package
- · Inrush current limiting

# **Product Highlights**

The M-FIAM9 is a DC front-end module that provides EMI filtering and transient protection. The M-FIAM9 enables designers using Vicor's 24 V or 28 V DC-DC converters to meet conducted emission / conducted susceptibility per MIL-STD-461E; and input transients per MIL-STD-704A/E/F and MIL-STD-1275A/B/D. The M-FIAM9 accepts an input voltage of 10 – 36 Vdc and delivers output power up to 500 W.

M-FIAM9 is housed in an industry standard "half brick" module measuring 2.28" x 2.2" x 0.5" and depending upon model selected, may be mounted onboard or inboard for height critical applications.

# **Compatible Products**

 Maxi, Mini, Micro Series 24 V and 28 V Input DC-DC converters or VIPAC Arrays

<sup>(1)</sup>EMI performance is subject to a wide variety of external influences such as PCB construction, circuit layout etc. As such, external components in addition to those listed herein may be required in specific instances to gain full compliance to the standards specified.

Actual Size: 2.28 x 2.2 x 0.5 in 57,9 x 55,9 x 12,7 mm

### **Absolute Maximum Rating**

| Parameter                 | Rating    | Unit   | Notes               |
|---------------------------|-----------|--------|---------------------|
| +In to -In                | 36        | Vdc    | Continuous          |
|                           | 100       | Vdc    | 50 mS, See Fig.1    |
|                           | 250       | Vdc    | 70 µS               |
| Mounting torque           | 5 (0.57)  | in-lbs | 6 each, #4-40 or M3 |
|                           | 500 (260) | °F(°C) | <5 sec; wave solder |
| Pin soldering temperature | 750 (390) | °F(°C) | <7 sec; hand solder |

# Thermal Resistance and Capacity

| Parameter                    | Min | Тур  | Max | Unit    |
|------------------------------|-----|------|-----|---------|
| Baseplate to sink            |     |      |     |         |
| flat, greased surface        |     | 0.16 |     | °C/Watt |
| with thermal pad (P/N 20264) |     | 0.1  |     | °C/Watt |
| Baseplate to ambient         |     |      |     |         |
| Free convection              |     | 7.9  |     | °C/Watt |
| 1000 LFM                     |     | 2.2  |     | °C/Watt |

# MTBF per MIL-HDBK-217F (M-FIAM9M21)

| Temperature | Environment                      | MTBF  | Unit      |
|-------------|----------------------------------|-------|-----------|
| 25 °C       | Ground Benign: G.B.              | 3,582 | 1,000 Hrs |
| 50 °C       | Naval Sheltered: N.S.            | 644   | 1,000 Hrs |
| 65 °C       | Airborne Inhabited Cargo: A.I.C. | 505   | 1,000 Hrs |

#### Part Numbering\*

\*Compatible with SurfMate and InMate socketing system.

# **SPECIFICATIONS**

(typical at  $T_{BP}$  = 25 °C, nominal line and 75% load, unless otherwise specified)

#### ■ INPUT SPECIFICATIONS

| Parameter          | Min | Тур | Max   | Unit | Notes   |
|--------------------|-----|-----|-------|------|---|
| Input voltage      | 10  | 28  | 36    | Vdc  | Continuous  |
| Inrush limiting    |     |     | 0.007 | Α/μF | Intended for use in Military Ground Vehicles where the power<br>available is per MIL-STD-1275D. Internal capacitance is<br>$\sim$ 50 $\mu$ F, which precedes the inrush limit circuit. External<br>precautions should be taken if the source cannot tolerate the<br>capacitive charge current associated with this internal<br>capacitance. |
| Transient immunity |     |     | 100   | Vdc  | 50 ms per MIL-STD-1275A/B/D, continuous operation   |
|                    |     |     | 250   | Vdc  | 70 $\mu$ s per MIL-STD-1275A/B/D, continuous operation  |
|                    |     |     | 70    | Vdc  | 20 ms per MIL-STD-704A, continuous operation  |
|                    |     |     | 50    | Vdc  | 12.5 ms per MIL-STD-704E/F, continuous operation  |

#### OUTPUT SPECIFICATIONS

| Parameter             | Min | Тур  | Max  | Unit    | Notes                  |
|-----------------------|-----|------|------|---------|------------------------|
| Output power          |     |      | 500  | W       | See Figure 5 & 6       |
| Output current        |     |      | 18   | Α       |                        |
| Efficiency            | 96  | 97   |      | %       |                        |
| Internal voltage drop |     | 0.85 | 1.5  | V       | 500 W, 25 °C baseplate |
| External capacitance  |     |      |      |         | See Figure 7 on page 5 |
|                       | 330 |      | 1000 | $\mu$ F | 50 V                   |

#### ■ CONTROL PIN SPECIFICATIONS

| Parameter      | Min | Тур | Max | Unit | Notes                                    |  |
|----------------|-----|-----|-----|------|--|--|
| ON/OFF control |     |     |     |      |  |  |
| Enable (ON)    | 0.0 |     | 1.0 | Vdc  | Referenced to – Vout                     |  |
| Disable (OFF)  | 3.5 |     | 5.0 | Vdc  | 100 k $\Omega$ internal pull up resistor |  |

#### ■ SAFETY SPECIFICATIONS

| Parameter            | Min | Тур   | Max | Unit | Notes                |
|----------------------|-----|-------|-----|------|----------------------|
| Dielectric withstand |     | 1,500 |     | Vrms | Input/Output to Base |
|                      |     | 2,121 |     | Vdc  | Input/Output to Base |

#### EMI

| Standard                  | Test Procedure             | Notes  |
|---------------------------|----------------------------|--|
| MIL-STD-461E              |                            |  |
| Conducted emissions:      | CE101, CE102               | When using with V28 series converters a 27 $\mu$ H inductor is |
| Conducted susceptibility: | CS101, CS114, CS115, CS116 | needed between the filter and converter for compliance         |
| Conducted susceptionity.  | 03101, 03114, 03113, 03110 | below 30% of rated power.                                      |

EMI performance is subject to a wide variety of external influences such as PCB construction, circuit layout etc. As such, external components in addition to those listed herein may be required in specific instances to gain full compliance to the standards specified.

# **SPECIFICATIONS (CONT.)**

#### GENERAL SPECIFICATIONS

| Parameter | Min | Тур | Мах      | Unit           | Notes |
|-----------|-----|-----|----------|----------------|-------|
| Weight    |     |     | 3.3 (94) | Ounces (grams) |       |
| Warranty  |     |     | 2        | Years          |       |

#### ENVIRONMENTAL QUALIFICATION

#### Altitude

MIL-STD-810F, Method 500.4, Procedure I & II, 40,000 ft. and 70,000 ft. Operational.

#### Explosive Atmosphere

MIL-STD-810F, Method 511.4, Procedure I, Operational.

#### Vibration

MIL-STD-810F, Method 514.5, Procedure I, Category 14, Sine and Random vibration per Table 514.5C for Helicopter AH-6J Main Rotor with overall level of 5.6 G rms for 4 hours per axis. MIL-STD-810F, Method 514.5C, General Minimum Integrity Curve per Figure 514.5C-17 with overall level of 7.7 G rms for 1 hour per axis.

#### Shock

MIL-STD-810F, Method 516.5, Procedure I, Functional Shock, 40 g. MIL-S-901D, Lightweight Hammer Shock, 3 impacts / axis, 1,3,5 ft. MIL-STD-202F, Method 213B, 60 g, 9 ms half sine. MIL-STD-202F, Method 213B, 75 g, 11ms Saw Tooth Shock.

#### Acceleration

MIL-STD-810F, Method 513.5, Procedure II, table 513.5-II, Operational, 2-7 g, 6 directions.

#### Humidity

MIL-STD-810F, Method 507.4.

#### Solder Test

MIL-STD-202G, Method 208H, 8 hour aging.

#### ENVIRONMENTAL STRESS SCREENING

| Parameter                           | H-Grade                        | M-Grade                        |

# Vicor's comprehensive line of power solutions includes high density AC-DC and DC-DC modules and accessory components, fully configurable AC-DC and DC-DC power supplies, and complete custom power systems.

Information furnished by Vicor is believed to be accurate and reliable. However, no responsibility is assumed by Vicor for its use. Vicor makes no representations or warranties with respect to the accuracy or completeness of the contents of this publication. Vicor reserves the right to make changes to any products, specifications, and product descriptions at any time without notice. Information published by Vicor has been checked and is believed to be accurate at the time it was printed; however, Vicor assumes no responsibility for inaccuracies. Testing and other quality controls are used to the extent Vicor deems necessary to support Vicor's product warranty. Except where mandated by government requirements, testing of all parameters of each product is not necessarily performed.

Specifications are subject to change without notice.

#### **Vicor's Standard Terms and Conditions**

All sales are subject to Vicor's Standard Terms and Conditions of Sale, which are available on Vicor's webpage or upon request.

#### **Product Warranty**

In Vicor's standard terms and conditions of sale, Vicor warrants that its products are free from non-conformity to its Standard Specifications (the "Express Limited Warranty"). This warranty is extended only to the original Buyer for the period expiring two (2) years after the date of shipment and is not transferable.

UNLESS OTHERWISE EXPRESSLY STATED IN A WRITTEN SALES AGREEMENT SIGNED BY A DULY AUTHORIZED VICOR SIGNATORY, VICOR DISCLAIMS ALL REPRESENTATIONS, LIABILITIES, AND WARRANTIES OF ANY KIND (WHETHER ARISING BY IMPLICATION OR BY OPERATION OF LAW) WITH RESPECT TO THE PRODUCTS, INCLUDING, WITHOUT LIMITATION, ANY WARRANTIES OR REPRESENTATIONS AS TO MERCHANTABILITY, FITNESS FOR PARTICULAR PURPOSE, INFRINGEMENT OF ANY PATENT, COPYRIGHT, OR OTHER INTELLECTUAL PROPERTY RIGHT, OR ANY OTHER MATTER.

This warranty does not extend to products subjected to misuse, accident, or improper application, maintenance, or storage. Vicor shall not be liable for collateral or consequential damage. Vicor disclaims any and all liability arising out of the application or use of any product or circuit and assumes no liability for applications assistance or buyer product design. Buyers are responsible for their products and applications using Vicor products and components. Prior to using or distributing any products that include Vicor components, buyers should provide adequate design, testing and operating safeguards.

Vicor will repair or replace defective products in accordance with its own best judgment. For service under this warranty, the buyer must contact Vicor to obtain a Return Material Authorization (RMA) number and shipping instructions. Products returned without prior authorization will be returned to the buyer. The buyer will pay all charges incurred in returning the product to the factory. Vicor will pay all reshipment charges if the product was defective within the terms of this warranty.

#### **Life Support Policy**

VICOR'S PRODUCTS ARE NOT AUTHORIZED FOR USE AS CRITICAL COMPONENTS IN LIFE SUPPORT DEVICES OR SYSTEMS WITHOUT THE EXPRESS PRIOR WRITTEN APPROVAL OF THE CHIEF EXECUTIVE OFFICER AND GENERAL COUNSEL OF VICOR CORPORATION. As used herein, life support devices or systems are devices which (a) are intended for surgical implant into the body, or (b) support or sustain life and whose failure to perform when properly used in accordance with instructions for use provided in the labeling can be reasonably expected to result in a significant injury to the user. A critical component is any component in a life support device or system whose failure to perform can be reasonably expected to cause the failure of the life support device or system or to affect its safety or effectiveness. Per Vicor Terms and Conditions of Sale, the user of Vicor products and components in life support applications assumes all risks of such use and indemnifies Vicor against all liability and damages.

#### **Intellectual Property Notice**

Vicor and its subsidiaries own Intellectual Property (including issued U.S. and Foreign Patents and pending patent applications) relating to the products described in this data sheet. No license, whether express, implied, or arising by estoppel or otherwise, to any intellectual property rights is granted by this document. Interested parties should contact Vicor's Intellectual Property Department.
