### Vishay BCcomponents

### Ø 10 mm Film Dielectric Trimmers

### **TEST VOLTAGE (DC) FOR 1 MINUTE:**

300 V

### **MAXIMUM CONTACT RESISTANCE:**

10 m $\Omega$ 

### **MINIMUM INSULATION RESISTANCE:**

10 000 M $\Omega$ 

### **CATEGORY TEMPERATURE RANGE:**

PP

- 40 to + 70 °C

PC, PTFE

- 40 to + 85 °C

### **CLIMATIC CATEGORY (IEC 60068):**

PP

40/070/21

PC, PTFE

40/085/21

### **MINIMUM STORAGE TEMPERATURE:**

- 55 °C

#### **RELATED SPECIFICATION:**

IEC 60418-1 and 4

### **EFFECTIVE ANGLE OF ROTATION:**

180° (rotation in 180° only, see "Life of Trimmer")

### **OPERATING TORQUE:**

2 to 25 mNm

### **MAXIMUM AXIAL THRUST:**

2 N

#### **FEATURES**

- · Housing diameter 10 mm
- For a basic grid of 2.54 mm (0.1") or 2.50 mm
- · Top and bottom or top adjustment
- · Vertical and horizontal versions
- Round head

ROHS

### **APPLICATIONS**

· For consumer and industrial equipment

### **DESCRIPTION:**

The vanes of the trimmer are stacked on a sturdy plastic base. The color of the base indicates the maximum capacitance (see Electrical Data Table). The dielectric is a film of polypropylene (PP), polycarbonate (PC) or polytetrafluorethylene (PTFE), which supports the vanes in such a way that good stability is ensured and no microphony can occur.

Flux absorption between the vanes is prevented.

Cleaning with solvents is not advised.

Versions are available with either a vertical spindle, or a horizontal spindle.

Both versions have top adjustment by means of a screwdriver or trimming key and bottom adjustment by means of a key.

### **QUALITY LEVEL:**

Sampling and data evaluation for quality level in accordance with "MIL-STD-105D" and "IEC 60410":

- < 0.15 % major defects
- < 0.65 % minor defects

Each capacitor is tested for minimum  $C_{\text{max}}$  and is also subjected to the full test voltage.

### C<sub>min</sub>/C<sub>max</sub>:

2.5/15 to 7/105 pF

### **RATED VOLTAGE (DC):**

150 V

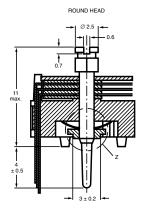

#### LIFE OF TRIMMER:

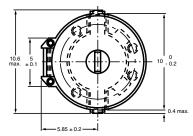

Maximum 10 cycles: rotation in 180° only (the electrical and mechanical performance is not guaranteed if rotated beyond 10 cycles)

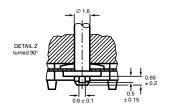

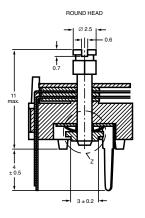

### Ø 10 mm Film Dielectric Trimmers

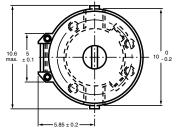

# Vishay BCcomponents

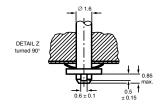

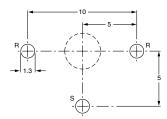

Trimmers BFC2 808 ..... series, vertical version

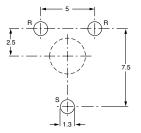

### Dimensions in millimeters

R = rotor, S = stator

The large hole is for bottom adjustment and the diameter is determined by user's requirements.

Hole pattern

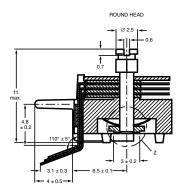

R = rotor, S = stator

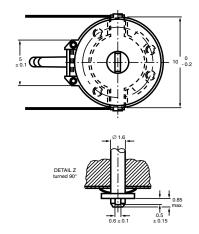

Hole pattern

# Vishay BCcomponents

### Ø 10 mm Film Dielectric Trimmers

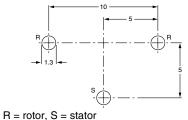

Trimmers BFC2 808 ..... series, horizontal version

Dimensions in millimeters

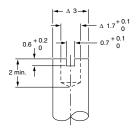

S = 10101, S = S18101

### Hole pattern

### **ADJUSTMENT**

For top adjustment a screwdriver or trimming key can be used; for bottom adjustment a key is required as shown below

Bottom adjustment key

### Ø 10 mm Film Dielectric Trimmers Vishay BCcomponents

### **PACKAGING**

The trimmer can be mounted on printed-circuit boards with a grid of 2.50 mm or 2.54 mm and a minimum hole diameter of 1.25 mm.

Bulk packaged in cardboard boxes lined with expanded plastic. For smallest packaging quantities (SPQ) see Electrical Data Table.

### **Disclaimer**

ALL PRODUCT, PRODUCT SPECIFICATIONS AND DATA ARE SUBJECT TO CHANGE WITHOUT NOTICE TO IMPROVE RELIABILITY, FUNCTION OR DESIGN OR OTHERWISE.

Vishay Intertechnology, Inc., its affiliates, agents, and employees, and all persons acting on its or their behalf (collectively, "Vishay"), disclaim any and all liability for any errors, inaccuracies or incompleteness contained in any datasheet or in any other disclosure relating to any product.

Vishay makes no warranty, representation or guarantee regarding the suitability of the products for any particular purpose or the continuing production of any product. To the maximum extent permitted by applicable law, Vishay disclaims (i) any and all liability arising out of the application or use of any product, (ii) any and all liability, including without limitation special, consequential or incidental damages, and (iii) any and all implied warranties, including warranties of fitness for particular purpose, non-infringement and merchantability.

Statements regarding the suitability of products for certain types of applications are based on Vishay's knowledge of typical requirements that are often placed on Vishay products in generic applications. Such statements are not binding statements about the suitability of products for a particular application. It is the customer's responsibility to validate that a particular product with the properties described in the product specification is suitable for use in a particular application. Parameters provided in datasheets and/or specifications may vary in different applications and performance may vary over time. All operating parameters, including typical parameters, must be validated for each customer application by the customer's technical experts. Product specifications do not expand or otherwise modify Vishay's terms and conditions of purchase, including but not limited to the warranty expressed therein.

Except as expressly indicated in writing, Vishay products are not designed for use in medical, life-saving, or life-sustaining applications or for any other application in which the failure of the Vishay product could result in personal injury or death. Customers using or selling Vishay products not expressly indicated for use in such applications do so at their own risk and agree to fully indemnify and hold Vishay and its distributors harmless from and against any and all claims, liabilities, expenses and damages arising or resulting in connection with such use or sale, including attorneys fees, even if such claim alleges that Vishay or its distributor was negligent regarding the design or manufacture of the part. Please contact authorized Vishay personnel to obtain written terms and conditions regarding products designed for such applications.

No license, express or implied, by estoppel or otherwise, to any intellectual property rights is granted by this document or by any conduct of Vishay. Product names and markings noted herein may be trademarks of their respective owners.

## **Material Category Policy**

Vishay Intertechnology, Inc. hereby certifies that all its products that are identified as RoHS-Compliant fulfill the definitions and restrictions defined under Directive 2011/65/EU of The European Parliament and of the Council of June 8, 2011 on the restriction of the use of certain hazardous substances in electrical and electronic equipment (EEE) - recast, unless otherwise specified as non-compliant.

Please note that some Vishay documentation may still make reference to RoHS Directive 2002/95/EC. We confirm that all the products identified as being compliant to Directive 2002/95/EC conform to Directive 2011/65/EU.
